§ 526.2 U.S. production by foreign manufacturer.

Each petition filed under section 503(b)(3) of the Motor Vehicle Information and Cost Savings Act must contain the following information:

(a) For each model type (as defined by the Environmental Protection Agency in 40 CFR part 600) planned by the petitioner to be sold in the United States (regardless of place of manufacture), and for each model year beginning with the year before the first one for which relief is sought by the petition through the last year covered by the petition, the following information based on the petitioner's current product plan and the assumption that the petition will be granted:

(1) A description of the model type, including car line designation, engine displacement and type, transmission type, and average fuel economy;

(2) U.S. sales projected for the model type;

(3) The average percentage of the cost to the manufacturer of the model type which is attributable to value added in the United States or Canada, determined in accordance with 40 CFR 600.511-80, and the total manufacturing cost per vehicle; and

(4) In the case of model types not offered for sale in the United States before the first year for which relief is sought in the petition or other model types for which expansions in production capacity are planned during the years covered by the petition, information (including any marketing surveys)

indicating from where the additional sales will be captured. If sales are projected to be captured from U.S. manufacturers, the petition must provide an estimate of the employment impact on those manufacturers of the lost sales and the gain in employment for the petitioner and its U.S. suppliers.

(b) The total number of persons employed in the United States by the petitioner, excluding non-motor vehicle industry related employees, for each model year covered by the petition and for the model year immediately prior to those years.

(c) A description of how the petitioner's responses to paragraphs (a) and (b) of this section would differ if the petition were denied.

Each plan submitted under section 503(b)(4) of the Motor Vehicle Information and Cost Savings Act must contain the following information:

(a) For each model year for which relief is sought in the plan and for each model type of automobile sought to be included by the submitter in its domestic fleet under the plan (i.e., those with at least 50 percent but less than 75 percent U.S. or Canadian value added), provide the following information:

(1) A description of the model type, including engine type and displacement, transmission class, car line designation, and fuel economy;

(2) The projected U.S. sales of the model type;

(3) The average total manufacturing cost per vehicle for the model type;

(4) The percentage of the cost to the manufacturer attributable to value added in the United States or Canada for the model type;

(b) For each year covered by the plan, a list of individual product actions (e.g., change from imported engine to domestically manufactured engine) which will increase the domestic content of the affected vehicles. For each action, provide the model year in which the action will take effect, a description of the nature of the action,

§ 526.4

and the percentage change in domestic content resulting from the action.
